

# COLOR CHART

The A.T. Villa laboratory furniture system finishes are made of highly durable hybrid powder-coating that complies with SEFA 8 standards.

The chart shows standard available colors. Other colors are available upon request. Refer to RAL color charts for available colors. [www.ralcolor.com](http://www.ralcolor.com)

Colors are approximate and can appear different in print and on various display monitors.

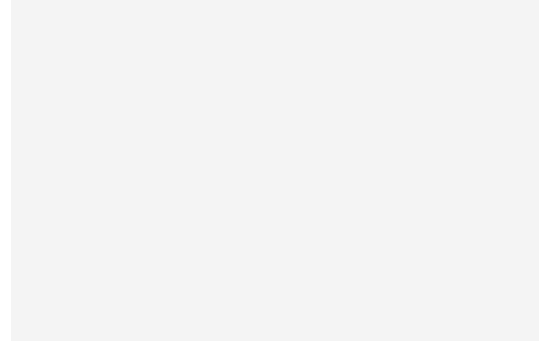

Paint samples are available upon request.

Premium Colors may require slight upcharge for smaller orders.
